

Zenithal Bundles

Under Embargo Till 25th September, 2 PM BST

On 25th September 2023, The Colour Forge released a collection of "Zenithal Bundles" with our Colour-Matched Spray Primers.

We are packaging a trio of spray cans in complementary dark, mid, and light tones, helping miniature painters create a brilliant zenithal effect to complete large projects, quickly, effectively, and without the need for an airbrush.

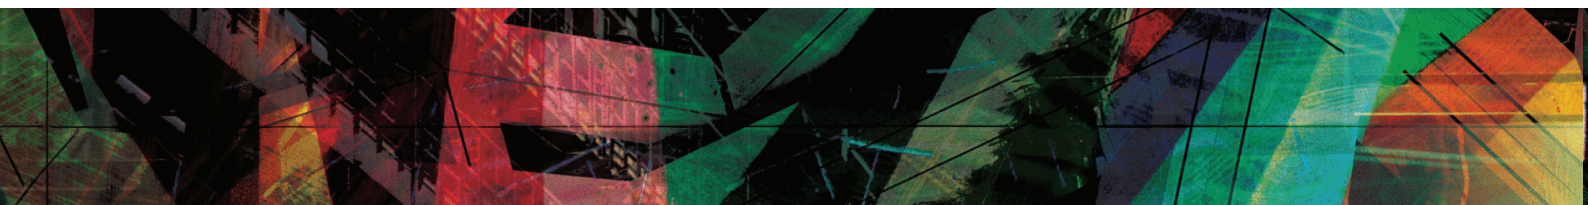

With a zenithal bundle and just a few subsequent steps, any hobbyist can get an army on the tabletop in an afternoon and at an unreasonably good standard.

Our initial offering of NINE bundles has been developed to cover the vast majority of projects, so there will be a bundle that's right for you no matter what you're painting.

These zenithal bundles utilise our ever-popular spray primers, and so benefit from everything that has made them the best primers on the market:

- A wide selection of colours which are easy to use on any project.
- Providing solid coverage, preserving all the detail of the miniature.
- XL Sized cans, large enough to complete your project.
- And of course, they're affordable.

The Colour Forge's spray primers are colour-matched to Citadel's acrylics (not their spray paints), enabling you to get an unbeatable match every single time. With an extensive range of colours at an affordable price, choosing a spray primer is as easy as using them!
